SUMMARY

Product Engineer building **AI-native products** from 0→1 with experience in **Product Ownership**, **PRDs/FRDs**, **AI Agent Systems**, roadmap execution, and cross-functional collaboration. Passionate about shipping customer-centric AI products through **data-informed** decisions and rapid execution.

EXPERIENCE

- Hapticware Intelligence Pvt. Ltd.** Apr 2026 – Present
Product Engineer (AI Systems) Pune, India
 - Owned end-to-end execution of **ExoQ (AI Agent OS)**, CRM, and Admin Portal, delivering **30+ features** from ideation to production while collaborating with founders, engineering, and customers.
 - Authored **25+ PRDs and FRDs** for AI agents, enterprise workflows, pricing, licensing, and compliance initiatives, enabling faster engineering execution and cross-functional alignment.
 - Defined product scope, feature prioritization, and workflows for **59 AI sub-agents** while leading **sprint planning**, roadmap execution, and **9 production releases in 3 weeks**.
 - Led **QA, UAT, and enterprise compliance** across **GDPR, HIPAA, ISO 27001, SOC 2, and DPDP**, coordinating audit readiness, validating product controls, and ensuring production-ready releases.
- DDN Storage (DataDirect Networks)** Apr 2025 – Mar 2026
Product Engineer Pune, India
 - Partnered with enterprise customers, support, and engineering teams to drive issue resolution and product improvements.
 - Performed **RCA** on **20+ enterprise incidents**, reducing repeat escalations by **15%**.
 - Automated log analysis using **Python**, improving debugging efficiency by approximately **40%**.
 - Created SOPs and technical documentation to streamline onboarding and operational workflows.

EDUCATION

Chitkara University, Patiala 2022 – 2026
Bachelor of Engineering in Computer Science CGPA: 8.27

PROJECTS

- ExoQ.ai**
 - Built AI workflows using **LLMs, RAG**, and multi-agent orchestration for an enterprise AI platform.
 - Defined product requirements and supported feature releases through UAT and stakeholder feedback.
- Healthcare CRM (HV Desai)**
 - Delivered CRM workflows by translating business requirements into user-centric product features.
 - Improved user experience through stakeholder collaboration and iterative feature enhancements.

SKILLS

- Product:** Product Ownership, PRDs/FRDs, Product Strategy, Roadmapping, Sprint Planning, Backlog Prioritization, Requirement Gathering, Stakeholder Management, UAT
- AI:** LLM Applications, Agentic AI, Multi-Agent Systems, RAG, AI Workflow Design, Prompt Engineering
- Data & Analytics:** SQL, Python (Pandas), MS Excel, Product Metrics, KPIs
- Enterprise:** Cross-functional Leadership, Customer Feedback Analysis, Compliance (GDPR, HIPAA, ISO 27001, SOC 2, DPDP), Agile Scrum
- Technical & Tools:** REST APIs, MERN Stack, Git, GitHub, GCP, Jira, Notion, Figma, Confluence, Claude, Cursor, Lovable

EXTRACURRICULAR

- Open Source Chandigarh** Sep 2023 – Mar 2024
Content Team Punjab, India
 - Collaborated with cross-functional teams to plan community initiatives, create technical content, and improve engagement across open-source events.
 - Researched industry trends, analyzed audience insights, and leveraged AI tools to optimize content strategy and drive community participation.

CERTIFICATIONS

- Google Project Management Certification - 2026**
- HP POWER LAB (Semi-Finalist) [Team Name: Gunjan1590.be22]**
